NO CRIME TO BUY.
DESPERATE CHINA.
MR. GRUNDY'S EXPENSES.
FLORIDA'S GROWTH.

—By Arthur Brisbane—
(Copyright 1930 By King Features

THE SUPREME COURT says it is a crime to sell liquor, but no crime to buy it. The highest court having spoken, that settles it. But you must not conspire with a bootlegger to break the law.

How you can buy whiskey from a bootlegger without conspiring with him to break the law your conscience must tell you.

The supreme court believes that Congress intended to punish the seller and the buyer go scot free in order that he might inform on the seller.

China is in a desperate situation, according to "the established government." Unless that government can soon win a decisive victory in the civil war now raging China will collapse, economically and otherwise. Banditry on a gigantic scale makes the situation unbearable.

IMAGINE this country in our civil war, the north fighting the south with tens of thousands of bandits on both sides of the line, preying on northerners and southerners.

China accuses Russia of instigating and financing bandit kidnapping operations.

MR. GRUNDY spent \$332,076 trying to win the Republican nomination for senator from Pennsylvania. Mr. Davis, secretary of labor, spent only \$10,541, and he, Davis, won. Money can do much, but not everything.

There is no suggestion of corruption in connection with Mr. Grundy's expenditure, and nearly all of the money was Mr. Grundy's own.

E. L. Lambright, editor of the Tampa Morning Tribune, wants you to know that in the census Florida will shine like a star of the morning. "A number of Florida towns have gained more than 300 per cent, a larger number more than 200 per cent. Many have more than doubles in population," he says.

Mr. Lambright believes that the total Florida census will show a gain of more than 55 per cent, bigger than California's gain.

MR. LAHBRIGHT objected to newspaper references to a "26 per cent gain for Florida." In that particular Florida was a misprint or a telegraphic error for New York, which will gain about 26 per cent.

Everybody in California should be delighted to hear of Florida's growth and everybody in Florida should be delighted with California's growth.

The important thing is that this country should go ahead. As every brother rejoices in the success of his brother, so every state should rejoice in the success of its sister state.

MR. MULROONEY, New York's new chief of police, finds in a well-known hotel four men and one woman with \$300,000 of stolen jewelry. Much of it came from Palm Beach.

You cannot make the South African believe that she would be as happy without her big nose ring or make former Palm Beach owners of the jewelry believe that they can.

DOG QUARANTINE EFFECTIVE HERE

Board Of Health Acts In Request By County Dog Warden Monday

The Salem board of health proclaimed a quarantine against all unlicensed dogs and dogs running loose, at a special meeting held Monday night.

The quarantine was asked by Deputy Sheriff C. E. Donahay as a result of prevalence of rabies throughout the city and cases in which ten persons were bitten here in the past ten days.

The period of quarantine is indefinite. All dogs running loose in the city will be shot. Those who are tagged will be killed and ownership traced through licenses. Fines of \$50 and costs will be imposed against all owners. Donahay stated, Donahay explained that all dog-owners should co-operate in the campaign and pointed out that those who violate statutes regarding unlicensed dogs or who permit dogs to run loose are the persons who are responsible for the quarantine.

SALEM FUND CAMPAIGN OPENS TODAY

Sharp Conflict Greeted Supreme Court Ruling

PURCHASERS OF LIQUOR IMMUNE UNDER DECISION

Dry Leaders Of Senate Seek Early Laws For Buyer Punishment

ENFORCEMENT BILLS FACING COMMITTEES

Amendment Of Jones Law On Misdemeanors Is Recommendation

WASHINGTON, May 27.—A sharp conflict of opinion among the dry leaders of the senate was produced today by the supreme court's decision declaring the purchaser of bootleg liquor ordinarily immune from prosecution.

The disagreement concerned the advisability of seeking the early enactment of legislation to make the liquor buyer punishable under the prohibition laws. Senator Sheppard of Texas urged that such action be undertaken. Senator Jones of Washington expressed an opposite view.

Sheppard was co-author of the Eighteenth amendment. Early in the present session he introduced a bill to make the seller and purchaser of illicit liquor equally liable to punishment. Jones is the author of the famous "five and ten law" providing severe maximum penalties for violations of the dry statutes.

Three Bills Approved
Meanwhile, a series of three bills, intended to improve prohibition enforcement principally through the relief of congested federal court dockets, bore the approval of the house judiciary committee. With several modifications, the program followed the general outline of the plan proposed by the Hoover law enforcement commission.

One measure would authorize the summary prosecution of offenses, elsewhere defined as misdemeanors, before United States commissioners without a jury. Whatever the action of the commissioner, it must be confirmed.

SMOOT-HAWLEY BILL FACES CRUCIAL TEST IN SENATE DEBATES

Determined Opposition Faces Bill Before Final Passage

WASHINGTON, May 27.—The Smoot-Hawley tariff bill today was put to final test in the fiery crucible of senate debate.

Brimming over with controversy, conference report on the measure came up for a discussion that will end in a vote to approve or reject the bill. The debate was expected to consume more than a week.

Chairman Smoot of the finance committee was ready with an exhaustive analysis of the work of the conferees. In this he took the report schedule by schedule discussing the rates as he came to them.

Opposition Determined
Opposition of a most determined nature came from the Democrats and independent Republicans. Their determined point of attack was the compromise on the flexible provisions under which the tariff commission would recommend emergency changes in the customs rates, to become effective after 60 days, unless specifically disapproved within that time by the president or ordered into operation sooner by the chief executive.

In addition, the opponents of the measure contended the conferees took the highest rate of the senate and house bills when differences existed and also that the senate conferees receded from state amendments in a majority of instances to accept a higher house

District Meet Ruled Tie By Ohio Athletic Commissioner

Salem, East Palestine To Cast Lots For Trophy Awarded In Meet

COLUMBUS, O., May 27.—H. R. Townsend, commissioner of high school athletics in Ohio, today ruled that Salem and East Palestine High schools had tied for first place in the northeast district track meet at Salem two weeks ago and that they should cast lots for the team trophy.

A dispute arose over fifth place in the one-mile relay. Fourteen teams were entered, Townsend said, and the race was run in three heats, results to be based on a comparison of time. Canton McKinley ran the fastest race, Akron West was second, Akron Garfield third and Youngstown South fourth. East Palestine's time was faster than Wellsville for fifth but East Palestine ran third in its heat while Wellsville finished second.

Although that circumstance should not have caused Referee David Williams of Girard to hesitate in declaring East Palestine the winner of one point for fifth place, Townsend said, Williams referred the matter to him, leaving Salem in the lead with 33 points and East Palestine second with 32.

The decision gives East Palestine the single point needed to tie the Salem for first place in the meet.

WHITHER INDIA?

A growing tendency is plainly apparent in the censored press dispatches from India. Every day there are reports of more unisings, more deaths. Details which might reveal more clearly the nature of the relations existing between the Nationalists and the police are lacking, but it is easy to supply them.

Mahatma Gandhi, who writes to his son that he is in good health and is satisfied with the conditions of his imprisonment at Poona, has been replaced four times as the leader of the civil disobedience movement. The most recent leader is J. V. Patel, who seeks an intensification of the non-violent campaign for independence. It is of the greatest importance that the Mahatma's desire for entire freedom from violence in the movement which he started at Gandhi on last April 6 has been violated many times thus weakening India's position. It was inevitable that the independence movement should become militant. Direct conflict always results in violence.

The inflamed crowds supporting the Nationalist movement in the larger cities of India are unorganized. The unrest which they agitate in the populace is directed toward nothing further than independence. Further than that it is unthinkable that the small group of Nationalist leaders could penetrate. The authority which they possess now would vanish in all probability were independence to be granted.

Mr. Gandhi's efforts have borne fruit insofar as creating widespread hostility and hatred are concerned. Yet, it is difficult to see what may be the result. Perhaps the rumor from London which mentions a compromise is the solution. The Mahatma's philosophy should enable him to welcome that step in the right direction.

YEAR BOOK

These are the days of year books. On school steps and in school classrooms groups are leafing through the new "annuals" with an intensity of interest which never betrays that the faces and the facts contained therein are familiar to all. The year books, in substance, are manuals of current history—invaluable records of school days.

Some of them make public for the first time the results of the student body's vote on outstanding student types. There are the most popular girl, the most popular boy, the most beautiful girl, the most handsome boy and an almost endless list of "mosts" of one kind or another. In collegiate circles it has become popular within the last few years to include a new classification, most likely to succeed. The intrinsic worth of these elections is problematical, but there is no doubt that they are attended with a great deal of interest by the students.

A particular debt of gratitude is owing to the young men and women who assemble the year books for their fellow students, as well as to the members of the faculty who supervise their efforts. The fact that the staff positions are usually elective and sought eagerly by those with journalistic ambitions does not lessen the amount of painstaking labor which must be expended in order to make the books successful. It is an excellent foretaste of what awaits the amateur editors, artists and business men in their chosen professions.

A glance at any one of the innumerable year books discloses the fine cooperation which exists among school officials, the students and the public. Without a reasonable volume of advertising and the hearty co-operation of school officials, the students would be helpless in their efforts to produce a record of their school year. Similar-

ly without the respect and loyalty of the students the merchants and school officials would be helpless in their lines of endeavor.

The year book is treasured as long as eyesight remains to look at it. It records events of the happiest days in life—school days.

The pastor out in Mendota, Ill., who shot the church janitor and the latter's wife to secure possession of an incriminating letter written by him to a woman member of his congregation, has been given a penitentiary sentence of from one to 14 years, which rather goes to dissipate his assumed right to shoot up people to protect his reputation as a minister.

Jed Harris asks: "If you are satisfied with your work isn't that about all you require to bring contentment?" Well, Jed, a whole lot depends naturally on what our friends and neighbors have.

What Others Say

MATRIMONIAL INSURANCE

A new form of "racket" comes to light in the decision of the attorney general of Arkansas affecting a matrimonial association of that state. The organization proposed to sell certificates to members with a \$15 initial fee, four dollars a year annual dues and assessments of \$1.25 at the time of marriage of any member of the association, one dollar of which would be payable as a "benefit" to the prospective bride or groom.

The attorney general says the proposed society would not be subject to regulation by the insurance commissioner, by the securities division or by any other agency of the state. It would not be eligible to receive a charter because he questions the validity of its contracts. In Texas quo warranto proceedings have been invoked to forfeit the charter of a similar project. In Indiana and Alabama courts the purposes of the association are held to be contrary to public policy in partial restraint of marriage. The supreme court of Maine deemed the contract void because in the nature of a wager.

No doubt there will be surprise at learning so many states have had to meet the problem of this kind. The idea is reminiscent of private and informal social organizations which undertake similar functions from a spirit of levity. But to raise it to the dignity of a commercial enterprise—in this case one might speak of demeaning marriage to the indignity of a commercial enterprise—challenges attention—Philadelphia Inquirer.

HEALTH

By Dr. Royal S. Copeland

BEING SICK IS COSTLY

Forward steps are being taken for improving health conditions in the United States. You can hardly take up a daily newspaper without reading the announcement of some step toward better facilities for medical and hospital care. Constantly preventive measures for health are being recommended.

The question of the cost of medical care is one of great interest at the present time. Much is being said on the subject. To the average family this is the most important factor in living costs.

The Metropolitan Life Insurance company has been making a very interesting canvass among its industrial policyholders in many states. It is a survey covering their expenditures for medical and other care in sickness during a period of six months in 1935.

Questionnaires were distributed by visiting nurses employed by the insurance company. These were presented to the company's policyholders, chiefly workmen's families in industrial centers in nearly every state in the union. The questions covered just how much of the workman's salary had to go for sickness; how much for care of the eyes and teeth; how much to the doctor; to the hospital, nurses, medicines and operations.

A summary of the information obtained is very interesting, and is given herewith:

"1. Practically every family had to make some expenditure for medical services during this period. Among 3,281 families, consisting of 12,129 persons, only 198 families reported no expenditures.

"2. The total amount disbursed by all families was \$230,907, an average expense of \$70 per family for six months, or \$140 estimated for a complete year.

"3. Private physicians received the largest share, 43 per cent of the total amount expended. One-fourth of all the money paid out went for medicines and hospitals, about an equal share for each.

"4. Eighty-two per cent of the families used the services of a private physician, and 83 per cent

needed medicines during this period. Thirty per cent of the families reported expenses for care of the teeth, and 9 per cent for care of the eyes. Hospitals were used by 15 per cent of the families. More than one-third of the families reported extra household expenses as a result of sickness and injury.

"5. Families that had the services of a private physician paid him an average of \$37 over a period of six months. Those that required hospital care paid an average of \$60 for this service, and those that had operations paid an average of \$74 for this special service."

It may be that the solution of the problem of providing for costs of medical care rests in some form of public and private insurance, where by the large family may have the best of medical care. As it is, such families have to resort to the free clinics and other agencies for care in time of sickness.

Sickness is a hazard of life that has to be met like other factors of living, such as accident and death. The real problem lies in furnishing adequate medical service for the person of average means, who now must resort to home remedies, and home care, where conditions call for hospital and other adequate medical treatment.

Members of large families cannot afford to pay as much for medical care as those in smaller families. Our hospital clinics are not able to cope with the large numbers who apply for assistance. It is hoped that some means will be devised whereby all may have proper medical care in time of sickness.

Lisbon—An epidemic of three-day measles has been raging in town for the past two weeks among school children. Now the disease has attacked the elders and many business men are suffering from the malady.

With the many improvements started this spring, the Salem Country club grounds, west of the city, are becoming more attractive and by the middle of the summer the place will be a real beauty spot.

"A FLOCK OF BIRDS"

By Kathleen Coyle

"A Flock of Birds"—is the story of an upper class, intelligent Irish family. Technically it stems directly from Ireland's most brilliant modern writer, James Joyce. The mixture of conscious and subconscious is more defined, more exact, more understandable to the ordinary reader, but "A Flock of Birds" is done in the same manner as "A Portrait of the Artist as a Young Man" or "Ulysses"—the same manner more stylized, less like a spigot turned on, perhaps.

The whole stream of Catherine Munster's consciousness does not flow unimpeded through the pages, as the stream for instance of Mrs. Brown's does, and being a woman of sensitiveness and delicacy of thought, and torn by the most tremendous emotion that can touch a mother, the stream has no flotsam or jetsam of sex in it, but the reader has the same sense of tremendous inner reality that he has in reading Joyce.

The story grips you with poignant pity but the emotion which it engenders in is in no sense a sentimental one. It is an intellectualized pity—and when you read it you will realize how much more intense an emotional reaction induced by the intellect can be than one induced by mere sentiment. It has something of the heart-rending power of the

final scene of "A Farewell to Arms." You remember how surprised you were to find yourself wracked by that last page? The last page of "A Flock of Birds" gives you that same sudden unforgettable wrench.

The Stars Say—

For Wednesday, May 28

The lunar transits for this day make for stirring and important events, with the prospect of an advantageous change of travel, possibly in connection with promotion or honors in employment or in the office of those in power or authority. It is a propitious time for pushing toward desired ends, since these in authority are friendly disposed, and also personal popularity is enhanced under the dominant rule ship. But be careful not to be means of self-undoing by words or impulsive, indolent, clamorous conduct.

These whose birthday it is, look for a year of advanced growth, with a change or job, benefit promised. It is a favorable time for dealing with superiors, the authorities, but the trend of events should not be dictated by rash, hasty or contented conduct or speech. Personal affairs are fortunately aspected. A child born on this day should have many talents and social graces fitting for success in either employment or in public place, but it should be disciplined in self-control and amability, as it may be restless, nervous and self-indulgent.

HUSBAND ENTERS SUIT IN COURT FOR PROPERTIES

Former Wife Defendant
In Case; Judge Lones
Grants Order

LISBON, May 27.—Lawrence Bailey, sentenced to serve one to five years in the Ohio penitentiary in January, 1929 after being convicted for manufacture of intoxicating liquor, now seeks the return of his property, both real and personal in a petition filed against his former wife, Clara Bailey, Eleventh street, N. W. Canton.

The petition filed by Attorney Ben L. Bennett relates that at the time Bailey was convicted, he had considerable real estate and chattels, consisting of over six acres of land in as many different tracts and lots in Beechwood addition in East Liverpool. His chattels consisted of \$1,400 in cash, two automobiles, two diamond rings, two watches, a ruby ring that was given him by his mother and some household goods.

It is further declared in the petition that he had arranged to provide for the support and maintenance of his wife and child by transference of the \$1,400 to his wife and arranging for the payment to her of the income from the real estate he owned as an additional means of support when he was advised by an attorney that it was unlawful for him to retain title to his real estate while being confined in the penitentiary.

Transfers Property
Relying on this advice, he transferred the property to his then wife. After the defendant was placed in the penitentiary, he demanded the maker of a land contract to make a deed for certain property which was refused and the deed was made to Mrs. Bailey, but the property was deemed as coming from the grantee, and the deed was delivered the defendant or her attorney.

It is furthered in the petition that the defendant fraudulently altered and changed the deed so as to place the title in her own name. The defendant has no legal interest in any of the real estate of the plaintiff. Bailey sets up and that his former wife holds title to his real estate as a naked trustee for the benefit of the plaintiff and that the property was to be returned to him upon his release.

Bailey requested his wife to transfer title of the real estate to him and return his personal property, but this Mrs. Bailey has refused to do with the exception of one diamond ring.

Judge W. F. Lones has granted a restraining order against the defendant from disposing of any property, setting the bond at \$200.

THREE KILLED IN CRASH OF PLANE

Craft Burns In View Of
Friends Of Occupants
In Tulsa Last Night

TULSA, OKLA., May 27.—Crashing as the pilot was landing on the lighted Garland airport, an airplane carrying Miss Ursula Ball, 28, of Tulsa, Robert Hammond, 21, and George E. Busboom, both of Carthage, Mo., fell 50 feet here last night and burned, killing the trio.

Bodies of the victims were seared beyond recognition. A half hour was required to extricate them from the smoldering wreckage. Friends of the three persons who had accompanied them to the field for the night flight witnessed the accident.

Busboom, a marble quarry owner, proprietor of the plane, and Hammond, his pilot, accompanied by E. J. Peters, Tulsa marble dealer, flew here this afternoon from Carthage. The ship was left at the field for some minor repair work. About 11 o'clock, Busboom and Hammond, returned to the field and had the motor warmed up for night flight above Tulsa.

Attendants at the airport said the plane, after flying low over the field, returned above the field, dipped as if to land, and then zoomed over a hangar before falling.

The reason for the crash was unknown.

Predict Success

Every speaker added his mite to the spirit of optimism which pervaded this preliminary meeting and there was a general prediction of success.

Solicitation among men in the shops has produced a generous response, it was reported, and this spurred the workers to go out this morning to get as much as possible the first day.

First reports from the teams will be submitted tonight, following dinner at 6:30 at the Memorial building. Window cards are being distributed this year, so solicitors will not call upon the families who already have contributed.

POLICE SUPPRESS INDIAN ATTACKS; RIOTERS INJURED

Crowd Pacified Following
Appearance Of Moslem
Leaders Today

BOMBAY, May 27.—Police, suppressing renewed attacks by Moslems in the Bendhi bazaar district, fired three times into the mob this forenoon injuring seven Moslems. A police sergeant was accidentally shot in the arm and taken to a hospital.

The crowd persistently stoned the police, the situation not easing until midday when prominent Moslem leaders visited the locality and succeeded in pacifying the rioters.

Their visit was the outcome of a call by a deputation on the police commissioner who agreed to withdraw military pickets from the thoroughfares into the police station compound.

Rioting continued at Rangoon today in the face of the strictest police regulations with 40 natives killed and 740 treated for wounds in the hospitals as the result of riots yesterday. The situation was regarded as critical.

An official report of the casualties not counting those of today indicated that 740 had been treated in hospitals, including 22 for gunshot wounds. These figures, it was emphasized, did not include persons who had received treatment at the scene of the riots on the waterfront, and did not include today's figures.

Six persons were killed yesterday in disorders at Dacca, important Bengal city 150 miles northeast of Calcutta. There were many injuries and the authorities made scores of arrests.

RANGOON, INDIA, May 27.—Sixty deaths were reported officially tonight in two days of disorders attending a dock strike in this Burman capital.

Many more are believed to have been killed in the rioting between Burmese coolies and Hindus, with whom the police have been battling unremittingly since yesterday morning.

KING GEORGE ILL AT BUCKINGHAM

Inflammation Of Hip To
Prevent King's Being
At Third Court

LONDON, May 27.—Illness of King George will prevent his attending the third court of the season to be held tonight at Buckingham palace, it was officially announced today.

It was said his majesty was suffering from inflammation of the right hip. On May 14 and May 15 he presided at the first two courts of the season, the first he had attended in two years due to his previous serious illness.

His serious illness of the winter of 1928 and 1929 was a bronchial pneumonia with subsequent pulmonary developments which necessitated draining of a lung abscess and other delicate and hazardous treatment.

Eight American girls are to be presented at tonight's court and were to have met the king, who is 64 years old. Six other American girls and women are to be presented tomorrow evening at the fourth and last court of the season.

It was stated on excellent authority that the trouble was not of a serious nature and has no connection with the king's recent illness.

CLEVELAND MAN DIES IN CHAIR

Slayer Pays Penalty For Death Of Waiter In Akron Holdup

COLUMBUS, O., May 27.—John Richardson, 22, Cleveland, paid in the electric chair last night for the murder, last September of Steve Pierson, waiter, in a lonely roadhouse near Akron.

Richardson, one of the coolest men who ever met death in the penitentiary here, smiled as the black mask was lowered over his head in death cell. His eyes remained fixed upon Father Albert O'Brien, one of the prison chaplains, until the cloth descended over his features.

Throughout his last day the slayer displayed indifference to his fate. He occupied himself, with his cellmates, also condemned men, by singing and bantering. When his foster mother, Mrs. Frank Martuch, who raised him from childhood, visited him yesterday afternoon, he had little to say.

The condemned man entered the death chamber at 9:03. Before him walked Father O'Brien, the priest, briskly to the chair while guards waited. Just before he sat down he kissed the crucifix the clergyman clutched in his hand. Then he was strapped in.

Prison physicians pronounced him dead at 9:08 p. m.

A recent picture shows her visiting an institution for little orphans, smiling at the tiny creatures as they marched around holding on to each other's little dresses. Queen Mary and her husband and their children have done their duty and set a good example.

Since they must have kings and queens, preferring them to our presidential elections, the British are fortunate in the kind they have. And the British live in a real democracy, with statesmen that make ours look like white mice.

MUCH DIFFERENCE between peace and war. If you read that an American soldier dashed into German military headquarters, knocked the man in charge unconscious, ripped the telephone from the wall to prevent an alarm and escaped with precious documents you would say "noble hero."

All those things were done yesterday by a colored man, nearly. He entered the Ramona motion picture theater, knocked unconscious Louis Diamond in charge, tore the telephone from the wall, took \$30 in precious bills and escaped. He is only a criminal.

wanted to revenge myself on humanity. The quicker I lose my head now, the happier I will be. Being in Germany, he will lose it soon. What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as

much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Improvements on the Farm

MANY farmers of this district have found that they do not need to wait for periods when farm income is high in order to keep up improvements on the farm.

If you have a barn that needs re-roofing, if you need a new silo or want to lay a concrete floor, if you wish to fence a pasture or make any other improvements, you can use the method some of your neighbors are employing.

They keep savings accounts here for farm improvements. They put in to those accounts spare dollars now and then and more dollars when they have them. Then when the time comes that improvements are needed the money is ready.

We invite the farmers of this district to use the facilities of the First National Bank.

Practical Nurse Has High Praise For New Konjola

Tried One Medicine After Another, But Only Konjola Gave Relief She Says

MRS. GEORGE SCHUNN

"I feel many years younger since taking Konjola," said Mrs. George Schunn, 3419 E. Idlewood, avenue, Youngstown, Ohio. "I had been suffering agonies with kidney trouble, indigestion, and constipation and swelling of my feet and ankles. These troubles robbed me of my strength and made life a burden to me. My stomach was in a terrible condition. I had no appetite, and what I did eat would sour on my stomach. My kidneys were weak and my rest was disturbed. I had frequent headaches and dizzy spells, and was constipated all the time.
 "But finally I found the medicine I needed the medicine I should have had in the first place! After taking four bottles of Konjola, all of these troubles left me. My appetite is much better, and I never suffer from gas bloating or other trouble of the stomach. My kidney troubles have been corrected and the swelling is gone from my feet and ankles. This medicine has given me wonderful new health and strength and I have the highest praise for Konjola."
 Konjola works with the organs of digestion and elimination, and drives the poisons and impurities from the system. It is recommended that Konjola be taken from six to eight weeks for best results.
 Konjola is sold in Salem, Ohio at The J. H. Lease Drug Co., Three Store, and by all the best druggists in all towns throughout this entire section.—Adv.

 Another would amend the United States code to define a misdemeanor as an offense calling for a maximum penalty of six months in jail, a fine of \$500 or both and a felony as an offense punished by imprisonment for not less than one year.

The third measure would amend the Jones law to define a misdemeanor under the prohibition laws as an offense committed by one who is not an habitual violator of dry statutes and a case involving more than one gallon of liquor.
 This program was approved by the committee late yesterday after it had received a supplementary report from Chairman Wickensham of the law enforcement commission. The committee had spent four months in an endeavor to agree upon a general plan for relieving court congestion.

NAVAL PACT TO
FACE VOTE IN
JUNE MEETINGCongress To Finish Other
Work, Then Adjourn For
Period Under Plan

WASHINGTON, May 27.—The London naval treaty is to be taken up by the senate at a special session to be called by President Hoover probably about the middle of next month.

In the meanwhile, it is planned that congress finish its other work and adjourn, with the chief executive immediately calling the senate back into session to dispose of the arms limitation pact. This course has the approval of Mr. Hoover and of the majority leaders of both houses of congress.

The program was worked out in a series of conferences ending in an announcement late yesterday of what had been accomplished.

Spokesmen for the house were reluctant to discuss a date for adjournment while veterans and rivers and harbors legislation is pending in the senate. However, the Republican steering committee of the latter gave assurance that these measures would be accorded the right of way.

Opposition to the program was voiced by Senator Johnson, Republican of California, a severe critic of the treaty. He protested against what he called "rushing" the pact through and engaged in a dispute with Senator Reed, Republican, Pennsylvania, on the merits of the naval agreement.

Denver Wives Declare Week
Of Vacation; Leave HusbandsNine Husbands Forced To
Seek Solace Of Clubs
As Women Emancipate

DENVER, COLO., May 27.—Husbands today sought the solace of their clubs, their children the undivided attention of a strike of nine Denver society matrons who yesterday began a week's voluntary vacation exile.

The latest development in women's emancipation came with unexpected suddenness to the bereaved homes. After packing bags, the nine women, accompanied by two unmarried friends, notified the heads of their respective establishments that they were going to the country for a week.

It was no joke. They went. They betook themselves to the country estate of Mrs. Henry Swan at Littleton, near Denver. All callers were told they were not at home. Telephone calls at the Swan residence were disconnected. Henry—that's Mr. Swan—was invited to go downtown and join the other husbands at their clubs.

Complete silence, and lots of it.

today came from the abode of the modern emancipators. It was said that a definite program for the seven days had been decided upon but, after vague rumors, no more information was forthcoming.

A spokesman hinted that rope skipping was on the morning schedule. Bridge was planned "to their hearts' content" for afternoon, and possibly into the evening.

Senators Set Terrific Pace To Top American League; Win 10-7 Decision From Yankees

While their highly touted brethren falter and stumble, the Washington Senators proceed blithely on their victorious way in the American league.

Picked in advance predictions to finish no higher than seventh, the Senators, under great leadership by Walter Johnson, were leading the pack by four full games today and giving no signs of cracking under the amazing pace they have set. Yesterday they scored their sixth successive victory and their 15th in 19 games, beating the New York Yankees, 10 to 7. Stealing a lead from the Yankee own book, the Senators won on home runs.

Judge Goslin Hit Hard

Joe Judge and Goose Goslin hit successive home runs in the fourth and repeated the feat in the fifth, thus accounting for six runs. The second blast from the Washington batmen was the high spot of a seven-run rally that swept Vernon Gomez off the mound and won the ball game.

Cleveland bounced back into third place with a double victory over the Chicago White Sox, 7 to 3 and 5 to 2. Wes Ferrell outpitched Red Faber by a wide margin in the opener and Clint Brown had an edge on Cecil Caraway in the nightcap.

Grove Wins Sixth

Lefty Grove chalked up his sixth win without a defeat as the Athletics beat Boston 8 to 5. Grove had only one bad inning, the eighth, when the Red Sox bunched hits for four runs.

The Detroit Tigers made good use of eight hits to beat St. Louis, 7

Wonderful Salts Says Mrs. Solomon

Tells How She Lost
47 Pounds In 3 Months

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides."

"Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say."

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it." Mrs. S. A. Solomon, New Bern, N. C., Jan. 1930. P. S. You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at J. H. Lease Drug Co., Three Stores, and druggists the world over. Take one-half teaspoon in a glass of hot water every morning before breakfast—walk a little each day. Do not overeat. Adv

THE summer wardrobe is not complete without several cotton frocks that may be laundered over and over again. The delightful model sketched today is a slenderizing style cleverly cut to simulate a jacket. The fastening of the belt, the short kimono sleeves, the flared skirt and the binding are interesting features.

Pattern 1916 uses silk or cotton fabric effectively—pique, shantung, madras, broadcloth, percale, shirtings or crepe. A print, or a solid color may be chosen and finished with colored braid for a smart effect.

May be obtained only in sizes 16, 18, 20, 24, 36, 40, 42 and 44. Size 16 requires 2 1/2 yards of 36 inch material and 5 yards braid.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instructions are given.

**DISORDERS MARK
EVENTS IN INDIA**

Disturbances and arrests of civil disobedience leaders in widely separated areas Monday compelled the attention of British and Indian authorities throughout India.

The killing of Dr. B. Murphy, assistant superintendent of police in Peshawar, indicated renewal of disorders in that strife torn district. Salt raids at Wadhwa were reported today, with 200 arrests and fully that many injured in encounters with armed police who raked the raiders with six rounds of gunfire.

Indian Moslems at Calcutta passed a resolution for civil disobedience and protested the policy of the Nationalist congress in ignoring Moslems.

Another woman leader today took charge of the volunteers at Untari, where Mrs. Sarojini Naidu last week was arrested. She is Mrs. Maniben Patel, daughter of Villabhai Patel. Fifty persons were injured during a riot in connection with a cloth mill strike at Delhi this morning. Police promptly gained control of the situation.

Civil and military police patrolled Rangoon's streets today in consequence of clashes during the fight and this morning between striking dock laborers and imported laborers and police. Nearly 100 people were injured.

HOME-MAKING HELPS

By Wanda Barton

Whether the gift will be welcomed with joy or the secret wish that some other choice had been made, all depends on how much one can find out in advance about the housekeeping plans of the new couple.

It used to be hard enough to decide on an acceptable gift if no clue was furnished by the bride-to-be. True, silver and linen are relatively safe. Good taste, but sometimes expensive. However, always there was the fear of duplication. And not without cause. Many a young bride had cause for quiet grumbling when she surveyed the triplicate pie knives and fancy carving sets and assorted sets of candlesticks—most of which she would gladly have traded in for a homely, more useful article.

And her hard lot was matched by the bride who yearned for lovely, useless things—and whose matter-of-fact friends showered her with sturdy, purposeful furnishings.

Surely there's a middle ground—and there ought to be a law of etiquette to ease the job for donors, and simultaneously makes the bride more cheerful when she surveys the mementoes of the occasion. This is an age of forthright speech, and rather than buy in doubt, it were better to consult the recipient, directly or indirectly.

Housekeeping articles are useful—providing she intends to keep house. Not everybody does—in these days of so many women continuing with their jobs after marriage. If she is to live in the lightest of light housekeeping apartments, then there are all sorts of dainty accessories to make things easy for

her. Electrical equipment—but this must be checked up with possible duplications first. If the articles are not exchangeable afterward, China, linen, silver, all the standard wedding gifts, are not what they used to be—there is a great difference in the kind of linen required by a light-housekeeping couple who eat out, from the kind of napery which will be appreciated by heavy home entertainers.

As for decorations—there one must walk softly. For the couple who plan a modernistic home may have decided opinions on exactly what shapes, colors, objects fit. That beautiful Chinese jar, or the fine Oriental rug which Great-aunt Martha selected so conscientiously, may receive anything but a warm welcome. If these moderns regard it as incongruous with the decorative scheme, it's out. Only the young couple, themselves, can tell precisely what will blend with their ideas, and choosing a gift without this confidence is almost hazardous. It may waste time and

money for the donor and place on polite recipients the unhappy duty of looking enthusiastic over something that makes them groan inwardly.

Still, it must be said that the gift question is far from hopeless. The revival of the beautiful antique reproductions—in furniture, pewter, colorful linens and draperies, provide a larger range of choice than ever before. Smoking accessories that will help unobtrusively to preserve the home furnishings around them, and yet are good looking in themselves, are now in the useful-but-beautiful class. For bookish couples, anything from membership in a book club up to some of the new bookcases, cleverly designed to be reading table, bookrack, magazine holder, writing desk. As for bridge addicts, there is no limit to the number of charming and helpful objects which will be acceptable—tables, lamps, accessories.

Incidentally, if gifts are initiated, it's best to find out from the bride which she prefers, her married or

single initials. According to old-fashioned etiquette, the bride's maiden name was used—but this is no longer an inflexible rule. She now follows her own whim about initials.
